

Spares Kit

MTS Insight® System

Productivity Insurance for Your MTS Insight® System

MTS understands the impact that a component failure can have on your testing operation. That's why we offer a spare parts solution for your MTS Insight System.

Our spares kit allows you to have the peace of mind knowing that if a failure occurs, you can access an immediate solution and keep your testing program on schedule. All MTS Insight spares kits contain both consumable and essential components that are prone to wear, including fuses, belts, grease, switches, bellows, and brushes, to respond rapidly to any problem that may occur.

All MTS Insight XLT Extensometer spares kits contain the necessary accessories to quickly get your equipment running, including gages, blocks, grip edges, guide wire, springs, and clamps.

EASY TO USE

Immediate access to critical spare parts in a single, clearly marked container.

MATCHES YOUR LAB CONFIGURATION

Spares reflect your installed base so that if you experience a component failure, you'll have parts in your kit to keep productivity high.

SOLVES CHALLENGES RELATED TO GLOBAL TRAVEL, CUSTOMS, AND TIME ZONES

Where you might have to wait 24 hours or longer for your service engineer to repair a down system, with a spares kit you can get up and running immediately after the problem is diagnosed.

be certain.
